## JANN HARRISON

Jann Harrison, an accomplished artist with deep southern roots, resides in Nashville, Tennessee. Harrison paints in a pop baroque style with a bold and bawdy brand of humor which has a strong presence in her work and is pervasive when she pushes the lighter side of life. She enjoys combining realism with elements of fantasy, moving in a touch of the surreal. For Jann, Harrison pushes the boundaries of her subjects to the place where they come alive and their story begins to unfold. The incorporation of these unexpected elements is her admitted trademark and the kiss is her seal.

In her most recent series "The Adventures Of Francois" Harrison chronicles the mythical Francois & M. Fabian V, a curious looking gentleman with a fine like appearance, yet a man. Through his persona, Harrison explores the intricate relationship between Francois and his family, friends and lovers. In recent years, Francois has traveled the world in search of the quintessential element missing from his life. During his ten years of traveling to exotic places around the globe, he lived with many people from various cultures and developed a deep love for mankind. His humanitarian efforts helped him to learn from others the meaning of pure love. During his travels, family friend, Lola Piccard has entered the arena and stolen his heart. Lola is the love of his life, his soul mate. Francois's heart has been transformed in many ways.

Jann Harrison has achieved international acclaim for the "Adventures of Francois Collection." In this series Harrison keeps a journal of Francois's travels and becomes more than an artist, she is a travel guide, a rising reporter and social commentator. Harrison is currently working on a book of vignettes to depict the story of many of the paintings she has created. Her art breathes magic into everyday life with humor and romance and brings smiles to the faces of those that enjoy her work. Harrison's work has been featured on the reality show "The Bachelor." Her original painting "The Billiard Room" will be featured in Pierre Bouvier's new movie "Salvation Boulevard." Harrison has signed a licensing deal with "Attack on Tit." Many of her original paintings are on display in select Bachelorette's house of restaurants. Jann's work is in galleries and private collections around the world.

"Life is the journey; art is the journal of where we have been and whom we have encountered along the way."

# Green Water?

## Did You Know...

-  Bottled water exceeds \$35 billion in annual sales. That's \$96 million a day or \$4 million an hour!
-  Producing bottled water uses more than 17 million barrels of oil annually, that's 47,000 barrels a day!
-  Supplying American consumers with bottled water releases over 1 billion pounds of CO<sub>2</sub> gas into the atmosphere!
-  462 million barrels of oil are needed to transport bottled water from the factory to point of sale!
-  In the United States alone over 2 million tons of plastic bottles end up in land fills every year. While only about 10% are recycled!
-  Plastic water bottles take over 1000 years to biodegrade as they leak toxic chemicals that eventually seep into our ground water.

## Now, are you wondering...

if there is a better, **greener** way to acquire clean, fresh drinking water ???

# There Is!

## Welcome to All Saints'

EPISCOPAL CHURCH

**Change** has a considerable psychological impact on the human mind. To the **fearful** it is threatening because it means that things may get worse. To the **hopeful** it is encouraging because things may get better. To the **confident** it is inspiring because the challenge exists to make things better. Obviously, then, one's character and frame of mind determine how readily he brings about change and how he reacts to change that is imposed on him.
